- Voici les outils dont vous avez besoin:
- Dit gereedschap is nodig:
- Herramientas necesarias:
- Gli attrezzi necessari:

- Möbeln monteras liggande med framsidan nedåt.
- To be assembled lying on it's front.
- Mit der Vorderseite nach unten montieren.
- A monter posé à plat, le panneau arrière vers le haut.
- Liggend te monteren met de voorkant naar beneden.
- Se debe montar en horizontal con el panel frontal hacia abajo.
- Il mobile va montato in posizione orizzontale con il pannello di fondo verso lálto.

Doc. No: AA-31162-1

1

- Använd gärna ett mjukt underlag som skydd vid monteringen.
- It is a good idea to use a soft, protective underlay during assembly.
- Es ist ratsam, eine weiche Unterlage als Schutz bei der Montage zu verwenden.
- Il est conseillé d'effectuer le montage sur un tapis, ou autre support souple.
- Zorg tijdens het monteren voor een zachte, beschermende ondergrond.
- Se recomienda utilizar una superficie blanda de apoyo como protección durante el montaje.
- Si consiglia di effettuare il montaggio su una superficie morbida.

- Ryggen är det som fixerar stommen. Därför måste stommen vara vinkelrät (90 grader) INNAN du spikar fast ryggen, annars blir möbelen sned.
- The back panel holds the frame in place. This is why the frame must be at right angles (90°) BEFORE nailing the back panel in place. If not, the piece of furniture will be crooked.
- Die Rückwand stabilisiert den Korpus. Achten Sie beim Einsetzen der Rückwand daher darauf, daß der Korpus rechtwinklig (90 Grad) montiert wird.
- C'est le dos qui maintient la structure. Il est donc important que la structure soit d'aplomb (angles à 90 degrés) AVANT de commencer à clouer le dos. Dans le cas contraire, le meuble sera bancal.
- De achterwand houdt het basiselement op z'n plaats. Zorg er daarom voor dat het basiselement in een hoek van 90 graden staat VOORDAT je de achterwand vastspijkert. Het meubel komt anders scheef te staan.
- El panel trasero fija la estructura. Asegúrate de que la estructura tenga ángulos rectos (90 grados) ANTES de colocar los clavos del panel. De lo contrario el mueble quedará torcido.
- Il pannello di fondo mantiene la struttura stabile. Ecco perché la struttura deve essere ad angolo retto (90 gradi) PRIMA di inchiodare il pannello di fondo: altrimenti il mobile si inclina.

- Du kan själv välja hur dörrarna ska öppnas.
- The doors may be mounted to the left or right, according to your choice.
- Entscheiden Sie selbst, wie die Türen geöffnet werden sollen.
- Ouverture des portes réversible.
- Bepaal zelf of je de deur links- of rechtsdraaiend wilt monteren.
- Tú mismo decides si las puertas se abren hacia la derecha o la izquierda.
- Scegli tu il senso di apertura delle ante.
